**Examiner's Reason for Allowance**

1. The following is an examiner's statement of reasons for allowance:

A storage case is recited have a fastening zone having a structure set forth in claim 17 that functions when applying onto the pressure element a pressure force acting in a direction that is perpendicular to the base plate without a data disk being inserted, the tongues move with the pressure element exclusively in said direction without moving relative to the pressure element. This is provided on page 9, lines 3-10 as would be understood by one of ordinary skill in the art. Noting in the prior art of record suggests or teaches such a structure where a force applied in the manner claimed moves a tongues that move with the pressure element exclusively in the direction of the force without the tongues moving relative to the pressure element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
